STATE NEWS.

Cumberland.

The *Argus* says The Eastern Express recently collected $1000 due on a savings bank book of very ancient date. It was issued by the Boston Provident Institution for Savings, fifty three years ago. It belonged to the estate of the late Benjamin Kingsbury, who recently died at a very advanced age.

A telegram at Greenland on the Eastern Railroad, reports that Ireland, the missing safe man, was seen there Monday morning by Mr Crane a jeweler at 122 Tremont st, Boston, who knows him well. He was afterward seen going toward Newmarket.

The house of Capt Howe in Portland, was robbed Thursday, while the family were at the Islands. Portland is being annoyed by a gang of burglars, at present, and as their depredations may not be confined solely to Portland, it will not be amiss for people to be careful that their houses are well secured.

Kennebec.

The Fairfield *Chronicle* says that Monday morning week a student of Colby went into Murray's saloon at the Waterville depot, and offered to eat ten ice creams in succession on a wager. His offer was accepted by his fellow students, and the creams furnished which he made way with in a few minutes. A short time afterwards he was taken in great distress and a doctor sent for who brought him out all right after awhile. The same student offered to eat ten mince pies in twenty minutes, but the offer was not accepted.

By the breaking of a floor in the South Brick School House Waterville upon which repairs are being made, four or five men fell quite a distance and two or three of them were somewhat injured though none were seriously hurt.

The river drivers belonging to the rear drive have reached Waterville and are at work on Ticonic Falls. The water is quite low.

Mr E H Smiley, a graduate of Colby, class of '73, and a teacher of considerable experience—has been engaged to teach the Waterville High School.

Over two hundred sailing vessels were in the Kennebec on Thursday last, the most at any one time this season, we believe.

The Augusta *Journal* speaking of the late wholesale sentencing of rum-sellers at Augusta by Judge Walton, says "Only a few days ago, a poor, care-worn woman, with two children at her side,—two little girls, innocent and unsuspecting of the life into which they are fast drifting —was seen at the very door of a rum shop in Augusta, begging and pleading of the proprietor that he might not sell liquor to her husband. She bore upon her person marks of violence which had been inflicted upon her by her husband while under the influence of liquor that he had sold him. And she pleaded in vain.

Knox.

James Furlong a one armed soldier from the Togus military asylum, was thrown from a carriage in Rockland Friday, and broke his collar bone and fractured the remaining stump of his right arm.

Oxford.

Mr. King of Walker's Mills has seven young eagles that he caught the other day.

Another rich vein of lead and silver has been discovered in Milton, which has fallen into the hands of those who will thoroughly test its value.

The Oxford House, Fryeburg, is quite full of summer boarders.

The *Register* says that a few days since Elmer L Stevens committed an unprovoked and brutal assault upon Walter Andrews of West Paris splitting a board (about 14 feet long) over his head striking him two blows with doubled hand, and kicking him.

Sagadahoc.

The Bath *Times* of Saturday says Last evening Mr Joseph Wolf and a young man by the name of Higgins were having an altercation, when Higgins, provoked at some words that Wolf had spoken, threw a stone at him with angry violence hitting Wolf on the side of the head and instantly knocking him over. In falling he struck the other side of the head upon a rock, producing concussion of the brain, from which the doctors apprehend the most serious consequence.

Somerset.

The Skowhegan *Reporter* says that there is a movement on foot to have a grand horse trot under the auspices of some of our horse men on the last Thursday and Friday of September. The Fair trot will come off on Wednesday of the same week.

Building in Canaan is brisk this season. George Weld of Skowhegan, a highly esteemed citizen, fell from a staging some 20 feet high last Saturday, while repairing his barn, bruising himself generally. Dr Cushing attended him.

Arrangements are being made for a grand temperance camp meeting in Anson some time in September.

Waldo.

The *Age* says that Mrs Selinda Chapman of Liberty was taking in some clothes from a line over a platform, when the railing gave way, letting her fall about ten feet on to some rocks, by which she was completely paralyzed. She now lies in a very precarious condition, and it is doubtful if she ever fully recovers from her injuries.

Garments dyed with aniline colors are poisonous to the body when brought into close and continuous contact. Therefore during the hot weather, where the pores of the skin are open, greate care should be taken in this respect. Repeated instances are on record of poisoning in consequence of aniline red on cotton, especially on colored undershirts and stockings a red edge, and also on browns and yellows where acid is an ingredient in the dye-stuff. The *Scientific American* gives an instance where aniline blue was the poisonous agent. Some woolen garments that had been dyed blue color were worn for a few days in hot weather, when the wearer noticed that the blue color stained the under-garments. A cutaneous eruption appeared in the locality of the stains, which soon extended to a large area, and became much inflamed. A pustular state followed, and resulted in excruciating suffering and prostration. The eminent physicians who examined the case ascribed it entirely to the poisonous influence of aniline blue. The only safe course is for all persons who wear clothing containing coloring matter to discard it on the first appearance of discoloration either on the garments or person.

THE LOSS OF SHIP STAR.—The following particulars of the loss of the ship Star of Yarmouth, Me., have been furnished by George Gould, the sailor who succeeded in reaching the land in safety.

"The ship loaded guano at Labos Island Peru, April 3, 1876. On or about April 23 the ship commenced leaking very much. The crew were unable to keep her clear of water by the pumps. The captain then ordered the crew to examine between decks and see if they could find the leak. This they failed to do. The captain then put the ship about and said they would try and make Valparaiso. On the fourth day after putting the ship about finding her sinking the captain steered for the nearest land. Unable to made land, the crew abandoned the vessel which sunk one hour after they had left her.

The captain second mate steward and five men took the life-boat. The first mate named Rice of Thomaston and eleven men, took the large boat. The boats separated ten hours after leaving the ship. Gould's boat steered for some port in the south of Chili. On the third day in the boat they made land and started for it. The boat in attempting to land was up et in the breakers and all the men with the exception of Gould were lost.

Gould was washed ashore on a plank and lay on the beach ten hours before he could walk or stand. When he was able to stand he could see nothing of his comrades. He walked to an Indian hut, and although they had little to eat they divided what they had with him. After stopping with the Indians three days he was able to walk to the Chilian town of Castro, and told the Governor of the town of the wreck. The Governor sent to the beach where the boat had capsized, and found the remains of one of the crew which had been washed on shore, also a chest with the captain's papers. Gould worked his passage from Castro to Valparaiso in the Larquena Wilber. The Star experienced no heavy weather up to the time she began to leak. The weather was moderate until the captain turned about, when it began to blow very much.

VERY HARD TO PLEASE.—There is a gentleman in this city who has acquired the habit of going to a fruit stand and after pricing the melons etc and eating about five cents worth of peanuts he objects to the price and does not buy anything.

Yesterday the fruit man made up his mind to sell him something anyhow.

How much are these melons? inquired the peanut fiend.

Five cents a piece.

Can I pick my melon.

Take the biggest you can find.

Let me plug em to find a ripe one.

Here's a knife, cut em wide open.

Don't you throw in a bunch?

Always.

Whew! If I had any way to get a melon home I believe I'd have it.

"Just say the word and I'll call you both home in a new hack, and give you ninety days to pay for the melon.

"Melons are going be cheaper after a while but if the chromo suits I'll take the melon. No color in it is there. Let me see the chromo."

"What chromo?"

Why you ought to be able to throw in a chromo if you mean business. I always get a chromo for cash transactions like that. Sorry can't trade. And he picked up a handful of peanuts and sauntered out. *San Antonio Herald.*

WESTERN BUTTER AT THE INTERNATIONAL EXPOSITION.—It seems a little curious after all that has been said about Western butter that a Western State should carry off the palm among the butter makers of the Union. Yet such is the fact. Mr. Stewart of Manchester, Iowa was awarded the first prize at Philadelphia at the show of butter held there recently under the auspices of the National Butter and Egg Association. There were nearly thirty competitors, representing the famous butter regions of the country. Mr Stewart we are informed by an exchange which pertinently asks if not the butter interest of our state worthy of more attention than it has yet received, is shipping, Ler from his creamery about 8,000 pounds of butter a week and returning to the State therefor weekly drafts amounting to between $2,500 and $3,000.—*West'n Iowa Journal.*

"Don't you know the prisoner Mr. Jones? Yes to the bone." "What is his character?" "Didn't know he had any." "Does he live near you?" "So near that he has spent only five shilling for fire wood in eight years." "Did he ever come in collision with you in any matter?" "Only once and then he was drunk and mistook me for a lamppost." "From what you know of him would you believe him under oath?" "That depends upon circumstances. If he was so much intoxicated that he did not know what he was saying I would, if not I wouldn't."

At the Centennial celebration of our national independence on the 4th of July last at Virgil, N. Y., the chaplain who officiated Deacon Nathan Bouton the reader of the Declaration of Independence Doctor F Hyde, the orator Colonel M. Frank, the Marshall, Colonel M Squire—each performed the same service at the same place at the celebration held there fifty years before. Probably a celebration under such circumstances did not occur in another place in the country.

A clergyman went to a livery stable one hot day recently to get a team. While waiting for it to be harnessed, he pulled off his coat and sat down in a convenient chair. A doctor came for his horse and seeing the parson in his shirt sleeves remarked facetiously "You are the man I want. I should like to get you to help me about my haying." The parson said with a twinkle in his eye I can't pitch and I can't mow but perhaps I can *rake after you*—I am going to attend a funeral."

THE THIRD DISTRICT.

The Congressional nominations in this State are all made, except in the Third District, where a successor to Mr Blaine is to be chosen The Republican Convention is called to meet at Augusta, August 9 and the prominent candidates are Hon John L Stevens, of Kennebec, and Hon. Stephen D Lindsey, of Somerset. Either of these gentlemen would represent the District with credit, and it is gratifying to find such excellent candidates brought forward.

Mr Lindsay is a lawyer of high standing, and a citizen of character and influence He has taken a prominent part in our State affairs, having served repeatedly in the Legislature, and as a member of the Executive Council, In all these positions he has displayed ability, and his prominence as a lawyer in his section, caused the mention of his name i connection with the vacancy on the Supreme Bench, at the time when Mr Libby was appointed Undoubtedly Mr Lindsey would have been chosen at that time but for the desire to give the appointment to the political opposition Mr Lindsey is strongly supported by his own county and will have the locality argument thoroughly urged in his behalf

Hon John L Stevens has been probably more prominently connected with our State politics than any other man save Mr Blaine, and is recognized as a gentleman of superior abilities For a number of years as Editor of the *Kennebec Journal* he was the foremost political writer in Maine and he has devoted much study to the subjects of political economy, revenue, tariffs, foreign history and Governmental science, until his mind is unusually well equipped with knowledge upon these subjects An indefatigable reader, he has applied much of his time to studies directly bearing upon the science of Government, and his long service in our State Legislature, has supplemented the experience which he gained as a journalist, concerning the affairs of our State and the politics and public policy of the Union. He was for several years United States Minister to Uruguay and Paraguay, where he gave much attention to the subject of our foreign policy and has in all these positions enjoyed excellent facilities for attaining knowledge that would be most useful in a Congressional career. Mr Stevens stands high in point of character and intellect and would make a strong member of our delegation

We trust that the present indications of harmony in the Convention may be realized and that the choice once made all will take hold together to carry the noble Third by a rousing majority

Some of Bluford Wilson's friends deny that he attempted to obtain from the records of the Treasury Department official documents If the investigating committee will call upon Secretary Morrill it may obtain some interesting information from him regarding this matter —*National Republican*

The *National Republican* has this significant paragraph "Secretary Bristow has not and will not deny the assertion that President Grant was always ready and always efficient in aiding the Treasury Department to ferret out the rogues connected with the whisky ring."

Bluford Wilson's testimony given before the Whiskey Committee, proves that Gen. Grant was from the first determined in pursuit of the whiskey ring. "When I said 'let no guilty man escape' I meant it," he said to Bluford Wilson, and there is nothing in the evidence which proves that he wavered."—*Boston Advertiser.*

The Philadelphia *Press* declares that throughout the entire transaction with Bristow and Wilson the President has been fearless and manly- and closes a long article on the subject with: "The whole affair leaves the President the same straightforward, reticent, uncomplaining character who entered into the responsibilities of the administration of the General Government March 4, 1869.

The majority in the House Friday carried out the instructions of the St. Louis Convention and voted the repudiation of the pledge to resume [illegible]. It was a gratuitous piece of turpitude. The act will not be repudiated this session, nor [illegible]. It will stand and will be observed. The Democratic Party has only [illegible] its [illegible] the honor of the nation and its [illegible] prospects.

SAMUEL J. TILDEN.

[From the Chicago Inter Ocean]

The pretense that Samuel J. Tilden had any hand in the overthrow of the Tammany-Tweed ring is negatived by the fact that Tilden was at the head of the ring. From 1866 down to the time of the overthrow of the ring, Tilden was Chairman of the Democratic State Committee. It was his duty to appoint the Executive Committee, and he did appoint it, making Tweed a member of it *every year* In 1868 he consulted with Tweed as to the best method of compassing sufficient frauds in New York City to overcome Republican majorities in the rural districts, and sent out his famous circular directing Democrats to report to Tweed Tweed did the rest, that is to say, stuffed from 25,000 to 40,000 votes into the ballot-boxes in the city, and so carried the electoral vote for Seymour Of this monstrous crime Tilden is as guilty before God and man as the felon Tweed. As Tilden invariably appointed Tweed on the Democratic State Executive Committee, so Tweed, as the ruler of Tammany, invariably appointed Tilden a "sachem," or member of the governing body of the society In the list for 1870 we find the following names William M Tweed, Samuel J Tilden, Peter B Sweeny, Richard B Connolly and Thomas J Fields. Tweed, Sweeny, Connolly and Fields are fugitives from justice and Tilden is the "reform" Governor of New York and the Democratic "reform" candidate for President. When Tweed ruled Tammany the city delegates to Democratic State conventions were chosen by the Tammany Society—that is to say, by Tweed In the list for 1869 we find the names of William M Tweed and Samuel J Tilden side by side. In the list for 1870 we find the following. William M. Tweed, Samuel J Tilden Richard B. Connolly and Thomas C Fields. If a man is known by the company he keeps, Samuel J Tilden ought to be in the Penitentiary or with his late boon companions hiding from the avenging arm of justice

[From the New York Times]

Had Mr Tilden been content to rank with the Fisks and Goulds and Scotts of the Democratic party the story of his railroad wreck, and of the devices by which he enriched himself at the expense of confiding shareholders and bondholders would have possessed no special interest The country is unhappily familiar with railroad schemes that have brought ruin upon their promoters, and which, under the guise of reconstruction have been made to minister to the aggrandizement of the sharper knaves who acquire control of their affairs One exposure of ruin and rascality has followed so close upon another that instances of individual infamy in connection with them have passed unchallenged, if not unseen When, however, one of the most adroit of these wreckers contrives to acquire a nomination for the Presidency, and actually sets himself up as a model reformer in national affairs, inquiry into the means by which he acquired his wealth is more than legitimate. It is an imperative duty Mr Tilden himself would have the people believe that he was a successful 'railroad lawyer"—no less, no more That is to say, he employed his professional knowledge in facilitating the business of railroads in a professional way The facts we have already published exhibit his operations in a totally different light In any other country, the methods by which original investors in various Western railroads were robbed of their property, and by which also the property was so manipulated as to yield enormous profits to those who had no equitable title to it would be very harshly characterized There are plain spoken persons, even in this country, who speak of these methods as though they were no better than swindling

The *Westliche Post* continues to say 'a few German words' to the sham Reformer A recent edition contains the following ' Samuel J Tilden has been arraigned by the United States Supreme Court for robbing parties of hundreds of thousands of dollars in connection with the St Louis and Terre Haute Railroad Instead of meeting the charge he has used all the arts of a cunning lawyer to secure a postponement of the case " It is now proposed by the so-called Democratic Reformers to elect as President this man who is in court as a defendant under charge of criminally robbing the stockholders of a railroad Will the honest Germans of the United States vote for such a man?

[From the New York Tribune ,
A KNOTT DROPPED OUT

The Hon Proctor Knott of Kentucky made a finish of himself in the House yesterday Mr Blaine had left but little of him in the passage at arms on the floor relative to the Caldwell dispatch some weeks ago, but what little remained Mr Knott himself made way with yesterday Where only yesterday was a Knott, regarded by himself apparently as a very tough and well-seasoned Knott, and at times on account of his brilliance a pine knot, to-day there is, for all practical purposes, so far as character, position, and influence are concerned, only a knott hole Knott has dropped out He can hardly be said to have been punched out, He shrunk up, loosened, and rattled out himself In his first encounter with Mr Blaine he had been so severely handled as to arouse compassion, the spectacle he made of himself yesterday excited only feelings of contempt and disgust on the part of his audience With a committee report under consideration which was intended to exonorate him of blame and restore him as it were to the good graces and the confidence of his fellow-members—a report which had been signed by all the members of the committee regardless of party, and would have been adopted by the House without discussion or dissent—this man contrived to put himself in such an attitude in the course of an uncalled for and indecent speech of an hour and a half as to turn the whole sentiment of the House against himself, compel his party friends to withdraw the report in his favor, disgust all who listened to him, and make of himself a most humiliating spectacle before the country. Congress has not been lacking in scenes which have brought the blush of shame to the cheeks of self-respecting patriots.—American citizens have had occasion before this to hang their heads in mortification at the performances of some of their representatives; but this exhibition by Mr. Proctor Knott was for coarse and cowardly abuse, low and mean insinuation and misrepresentation, total disregard of propriety and decency, vindictive malice and deliberate brutality, beyond anything ever witnessed in that line.

No wonder his own party friends were ashamed of him. No wonder that the report of the committee was recommitted, so that the gentlemen composing it could have an opportunity of reviewing their opinion of Mr. Proctor Knott upon his own exhibition and illustration of himself. And no wonder that Messrs. Frye and Hale and Hoar [illegible] called upon to administer a deserved castigation to him. It was not merely [illegible] breach of decorum or violation of the [illegible] of ordinary courtesy or a [illegible] [illegible] of [illegible]

worse temper It was something much worse than this, for it was deliberate, cold-blooded, revengeful, with nothing in the occasion, the circumstances, the time, or the place to excuse or palliate it, but everything rather to aggravate its indecency and meanness. Had there been no word of protest or rebuke uttered, and had the discussion stopped with Knott's wild harangue, he would have been disgraced and dishonored in the judgment of the public The shamefulness of his conduct did not need to be pointed out His own utterances made it sufficiently patent. There will be no doubt in the public mind as to the justice and propriety of the remarks of Messrs Frye, Hale and Hoar in his condemnation. His humiliation was made complete by the action of his colleagues, who, so far from giving him any countenance or support, voted almost to a man to recommit the report, and withdraw for the present, at least, the exoneration they had been ready to give him Good by, Mr Knott

Potter Palmer of the Palmer House, Chicago, where the widows of Gen. Custer, Captains Yates, Smith and Calhoun, whose husbands were killed with Custer, have been guests, has started a subscription for them, which will reach $3000 Mrs Custer is very much prostrated by the sad experience of the recent slaughter of her brave husband and his men

The New York correspondent of the Cincinnati *Gazette* reports that Tilden is eminently selfish in his conduct of the campaign—ignores Hendricks and all others It is declared that Tilden is not an inspiration but a dead weight. If the first guns in the campaign are against him he will lose hosts of Democrats in New York and meet his Waterloo in the Empire State

The New York correspondent of the Boston *Transcript* says the truth is all Republicans in New York are heartily united for Hayes and Wheeler and that is as it should be Those who ran away after strange gods four years ago and have been out in the cold ever since, appear to be only too glad to get back home again Fenton, and Schurz, and Ethan Allen, and Whitelaw Reid are all getting in tune once more, as Thomas Nast, of *Harper's Weekly* has it

The enthusiastic reception tendered Mr Hayes and Mr Wheeler on revisiting their native villages after receiving their nominations, have been the pleasantest incidents of the campaign Mr Tilden how ever did not visit his native place after receiving his nomination and if he had, it is to be feared that his reception would have been disappointing It has not indeed been a favorite place of resort with him for a number of years—in fact since he became the object of general odium on account of defrauding his townspeople and neighbors by a swindling railroad operation

General John A Dix in answer to a letter of inquiry, says "Mr Tilden did not unite in the call for the great Union meeting in New York after the attack and surrender of Fort Sumter But he refused to attend it, though urgently solicited by one of his own political friends The meeting was called for the purpose of sustaining the Government and to provide for sending troops to Washington, which was thought to be in danger of an attack by the Confederates This fact was publicly stated when Mr Tilden was a candidate for Governor in 1874 "

Be it ordained by the City Council of the City of Bangor as follows

SEC 1. It shall be the duty of the Water Board of said City to cause all the Hydrants connected with the Water Works, to be examined as often as necessary to see if they are in good order to keep them, during winter, free from snow and ice and to have them at all times in good condition for use

SEC 2 No person unless authorized by said Board shall open any fire hydrant, nor remove any cap thereof, nor fasten any horse, or team to or in front thereof or in any way obstruct free access to and use thereof, nor deposit any dirt, or other material in any public or private stop gate box or stop, nor in any manner commit any act tending to obstruct the use of any hydrant gate or valve Provided, however in cases of fire, the hydrants shall be for the time being under the entire control of the Chief Engineer of the Fire Department, who after each fire shall cause each hydrant used to be left in good condition for immediate use Said Engineer may also after having given notice to said Board of his intention so to do, use said hydrants to fill the reservoirs of said City

SEC 3 Any person desiring a supply of water shall make application in writing to said Board stating for what use it is wanted, the location in which it is desired, and as near as may be the extent of its use If application is made by tenants it must contain the assent of the owner or agent of the premises, and he, or they, shall be responsible for the rent for the use thereof

SEC 4 All pipes, valves and fixtures, must be capable of sustaining a pressure of at least two hundred pounds to the square inch, and the plumber's work must be examined and tested by the Inspector of said Board before the water is finally turned on

SEC 5 Said Board will furnish and lay a Service pipe from the street main to the outer edge of the sidewalk and furnish and place at said edge of the sidewalk a stop valve and box, on condition that the applicant shall thereafter maintain and keep it in order at his own cost, and that the same shall at all times be completely subject to the control of said Board

No pipe shall be connected with the City service pipe, nor shall water be turned on at any time until a permit is issued therefor

All connections with main pipes shall be made by a person appointed for that service by said Board

SEC 6 Said Board are authorized to appoint an Inspector of said Works and define his duties.

Said Inspector shall at all times when on duty, wear in a conspicuous place on his clothing a badge furnished by the Water Board

He shall at all proper and reasonable times have access to, and be permitted to inspect pipes, fixtures and apparatus supplied with water, and may control the location and use of the stop and waste cock in the cellar of the building or in whatever location it may be placed as the interests of the City may require

SEC 7 Water will in no instance be turned on until the plumbing has been examined and approved by the Inspector of said Board or reported safely and well completed in all its parts, to sustain a pressure of two hundred pounds to the square inch by a plumber licensed by the Board, and approved by the Inspector, and every plumber who shall set up any pipes, fixtures or apparatus for the use of water, or shall make repairs upon or additions to those already set up shall report to said Board within two days of the completion thereof the nature of the repairs or additions which have been made to the work heretofore existing.

SEC 8 All persons supplied with water shall keep the cocks, pipes and fixtures in good repair and protected from frost No continuous flow to guard against freezing or for other causes will be allowed but by special permit of said Board, and by paying extra rates therefor, and no leak shall be suffered to exist in any pipe fixture, or attachment

SEC 9 An unnecessary use or waste of water or allowing it to be used by parties, or for purposes not specified in the application will subject the offender to an immediate stoppage of the water and the payment of not less than double the rates for the quantities thus used, or wasted as estimated by the Inspector

And when water has been turned off from any premises for any reasons above stated, or for any defect in the plumbing, the sum of one dollar will be charged for turning on

SEC 10 Any person considering his Water Rates excessive may apply to said Board for a meter to be set at his expense, and the amount of his rent may be determined thereby, and said Board may cause a meter to be attached to any premises where they have reason to believe that an unnecessary or fraudulent use of water is being made and may assess rates upon such premises thereby

SEC 11 Water supplied for hydraulic power or in large quantities for special use will be subject to such restrictions as said Board may impose and no meter shall be put in use without the consent of said Board.

SEC 12. Each builder or superintendent of building using City water shall, or the first day of each month, return to said Board at their office, a full and true account of all water used by him during the month previous, and he shall at that time pay for the water so used

SEC 13 All water rates, except for building purposes, meter rates lawn and street sprinklers, shall be due and payable at the office of said Board, quarterly in advance on the first day each of January, April, July and October Meter rates will be due and payable at the same place on the first day of the succeeding quarter, and rates for garden, lawn and street sprinklers will be due and payable in advance at said office on the first day of April and July of each year,

The amount of each rent remaining unpaid twenty days after it is due, will be increased ten per cent., and one per cent. per month interest on the original amount due will be charged in addition therefor, until paid, together with costs of collection

SEC 14 Not more than twenty five per cent discount will be made from regular rates when supplies of water are taken by special permit from yard fixtures, or from sources without the premises, and in no case shall such supplies be taken from Fire Hydrants

SEC 15. Said Board reserve the right to shut off water after giving notice of their intention to do so, for the purpose of making extensions, alterations or necessary repairs

And they will shut off water without notice from premises when the user shall disregard the rules for its supply, neglect to pay the rents therefor promptly or shall sell or permit an unauthorized use of the water

Any person receiving water through a stop in common with another person, will be liable to have his supply shut off in consequence of the violation of the rules by the other person or party.

SEC 16 The regular rates for fountains and jets will be based upon their use for six hours per day for one hundred days in the year, or equivalent to that time, and shall not exceed in size in locations not over one hundred feet above the pumping house floor, three-sixteenths of an inch in diameter

And for localities not over one hundred and fifty feet above said floor, one-fourth of an inch in diameter, and in no case over three-eighths of an inch in diameter

SEC 17. The regular rates for street and garden sprinklers and for Yard or Lawn Hydrants will be based upon their use for one hour per day for ninety days in the year, and are not to be used to the inconvenience or injury of persons passing in the streets and only at such hours as said Board may direct.

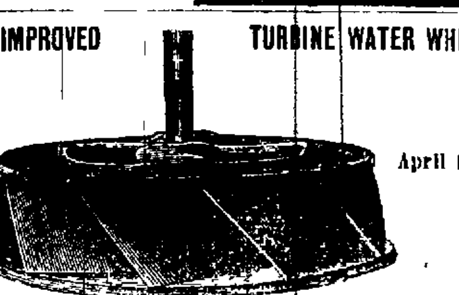

Yard and Garden Hydrants must not be converted into Jets, and neither the sprinklers or hydrants are to be used for wetting other premises than the ones defined in the application without permission of said Board and payment for said additional use. The size of the stream permitted shall in all cases be fixed by the Board and the increasing of the size by the user shall be sufficient cause for the turning off of the water.

The Board may designate the hours during which the sprinklers or hydrants may be used Their use while a fire is raging is positively forbidden except in case of danger of the premises from fire.

SEC. 18. All valves for water closets and urinals must be self-closing, and are to be submitted to and approved by the Inspector of the Board.

Tanks receiving water direct from the mains are to be fitted with approved self-acting float valves.

SEC. 19. Any person who shall violate any of the provisions of this ordinance, shall forfeit and pay the sum of [illegible] dollars [illegible] the name of the City Treasurer for the use of the City [illegible] in the City of Bangor [illegible] of the same.

DOMESTIC NEWS.

FORTY-FOURTH CONGRESS—First Session.

Senate.

WASHINGTON, August 7, 1876.

A bill in reference to the wreck of the monitor Tecumseh, in Mobile Bay, was passed.

A bill extending the time for the redemption of land sold for taxes was passed.

Mr. Boutwell presented the majority, and Mr. Bayard the minority report of the Committee of investigation into the late election in Mississippi. The reports will be read to-morrow.

A bill making appropriations for claims allowed by the Southern Claims Commission passed.

The House bill to repeal the resumption day clause of the resumption bill of 1875 and the House joint resolution to provide for the appointment of a commission to inquire into the change which has taken place in the relative value of gold and silver and the effect on trade were read and referred to the Finance Committee.

Mr. Anthony introduced a bill making appropriations from the contingent fund of Congress to carry out the provisions of the sundry civil appropriation bill, requiring an inquiry into the condition of the public printing so as to authorize the employment of experts, and the administration of oaths by the Committee.—Passed.

Mr. Frelinghuysen moved that the joint resolution of the House, proposing a 16th amendment to the constitution prohibiting the appropriation of any school fund for the support of sectarian schools, etc., be referred to the Judiciary Committee. He said the people of the country are in earnest on this subject, but the amendment proposed by the House did not meet the case. Suppose any State did make such an appropriation, what could Congress do about it? The amendment gave no power to Congress to enforce by appropriate legislation.

Mr. Frelinghuysen submitted a substitute for the amendment proposed by the House providing that no money, property or land should be given to any sectarian school, college or institute of learning or any church, monastery or convent, and authorizing Congress to pass such laws as may be necessary to give effect to the amendment and moved its reference to the Judiciary Committee. Mr. Sargent also submitted a substitute and moved the same reference. Mr. Christiancy also presented a substitute to be so referred.

The House amendments and all the substitutes were then referred to the Committee on Judiciary.

The Senate took up the consideration of unfinished business, it being the resolution of Morton to print 10,000 copies of the message of the President and documents in regard to the recent trouble at Hamburg, S. C.

Pending the discussion Mr. Allison, from the conference committee on the river and harbor bill, submitted a report that the committee had agreed upon the bill, and it was ordered to be printed and laid over until to-morrow.

The chair appointed Messrs. Ingalls, Oglesby and McCreery as a conference committee on the bill to authorize the Secretary of the Interior to deposit certain funds in the United States Treasury in lieu of investing them.

The Senate resumed consideration of Mr. Morton's resolution and after considerable discussion adjourned without action on the matter.

House.

There were but few bills introduced under the call of States, but a resolution was offered by Mr. Douglass, of Virginia, allowing the Committee of Investigation to report at any time during the present session. This was resisted by the Republicans, who resorted to a plan of refraining from voting, thus revealing an apparent absence of a quorum, and preventing the transaction of any business. Then there had to be a call of the House, and the absent members were presented in custody of the Sergeant-at-Arms, with the usual amusing incidents and explanations.

Mr. Chittenden moved an adjournment. Lost.

Finally Mr. Cox suggested a compromise in the way of two days notice of reports being given.

Mr. Hale, who had been leading the opposition, assented to the suggestion with the understanding that two days notice should be given by the majority of a committee to the minority so that both reports should be made together and go to the country simultaneously. He disclaimed any desire to exclude the reports of committees.

After much discussion a compromise was effected in the adoption of a resolution offered by Mr. Cox, that the investigating committees have leave to report during the remainder of the session at any time after two days from the time that the committee has agreed to its report, and submitted the same to the minority who shall have leave at the same time to submit their views to the House, and that if the minority of the committee shall be absent, notice shall be given in the House.

The House then at 5.30 adjourned, after refusing leave of absence to some twenty members who had applied for the same.

NEW HAMPSHIRE.

Murdered—Burned to Death.

BOSTON, Aug. 7. A special to the Journal says a man named Williams was shot and killed at Tamworth, N. H., yesterday, by Mr. Conn, owner of a pond in which the former was proposing to bathe.

Mrs. Patrick Kalley was burned to death at Lowell, to-day, her clothes taking fire from sparks of her pipe.

Further particulars of the murder.

FRYEBURG, Maine, Aug. 7. A party of young men from Tamworth iron-works went yesterday to Chocorua Lake, in Albany, N. H., to bathe. Four had entered the water, and one Paul Williams was attending to the horse, when a Mr. Cone, keeper of a boarding house near, appeared and ordered them away. Not complying with the request, he at once went to his house and bringing a musket, fired upon Williams killing him instantly. After a vigorous pursuit his companions succeeded in securing Cone and he is now lodged in jail. Williams was an estimable young man, and the excitement in the vicinity over the sad affair is intense.

MASSACHUSETTS.

Railroad Accident.

FITCHBURG, Aug. 7. Engineer Scott's freight train from the tunnel, ran into the Cheshire freight train this morning, near West Fitchburg. The Cheshire train had stopped, and neglected to send a flagman back. A passenger from Greenfield had his wrist broken and head cut. The engine from Shelburne Falls and several cars were badly smashed.

RHODE ISLAND.

Drowned.

PROVIDENCE, Aug. 7. West Sloat, a young man who accompanied a fishing excursion from Newport, yesterday, was seized with cramps while swimming in the bay, and drowned. The body was soon recovered.

NEW YORK CITY.

Murders.

NEW YORK, Aug. 7. Paolo Proprinno was killed by another rag-picker named J. Lozerio, in a quarrel last night.

Bessie Crawford mortally stabbed T. Forrester last night, in an assignation house for refusing to marry her.

NEW YORK STATE.

Ten Persons Drowned.

WHITEHALL, Aug. 7. Ten persons were drowned Sunday afternoon, while crossing Putnam's Pond, 12 miles from Crown Point, near Ironville. Fourteen persons were in a small row boat, which was capsized by a squall.

WASHINGTON.

Bluford Wilson.

WASHINGTON, 7. Bluford Wilson to-day said he did not know of his own knowledge that the President was angry at the publication of the endorsement, "Let no guilty man escape if it can be avoided, etc." on the Barnard letter. He did remember saying to Yaryan that importunity was required to procure such endorsement. He then repeated his previous belief that after the "Sylph" telegram was discovered implicating Babcock, the President changed his mind about the whiskey prosecutions.

J. Proctor Knott.

The Judiciary Committee took up the report exonerating Knott in relation to the suppression of the Caldwell despatch. After discussion the report was read and adopted, all the Democrats voting in favor of it and the Republicans against it. Mr. Frye of the minority was allowed to submit a minority report or prepare a resolution as a substitute, but the Republicans concluded not to do either. The original report will be submitted to the House, the only difference being that when the report was presented Thursday, it was an unanimous one and to-day it is signed by the Democrats alone.

Lamar Overheated.

About one o'clock this afternoon Congressman Lamar was overcome by the excessive heat, causing vertigo and was assisted to the Speaker's room. He fully recovered in a few minutes and returned to the hall of the House.

The Mississippi Outrages—Gross Frauds Shown in the Elections.

The report presented by Boutwell in behalf of the majority of the Mississippi investigating committee, reaches the conclusion that the present Legislature of Mississippi was elected by fraud and intimidation and is therefore not legal. The registration of Gov. Ames was illegally affected by this Legislature; that the State of Mississippi is at present under the control of political organizations composed largely of armed men whose common purpose is to deprive the negroes of the free exercise of their right of suffrage; that these organizations will, if left to themselves, retain control by force and fraud; last, the power of the National Government will be invoked and should be exercised in order to make good its guarantee of a Republican form of government to the State. The report concludes as follows: The measures necessary and possible in an exigency are three: Laws may be passed by Congress for the protection of citizens in the respective States. Second, States in anarchy or wherein affairs are controlled by bodies of armed men, should be denied representation in Congress. Third, the constitutional guarantee of a Republican form of government to every State will require the United States, if these disorders increase or even continue and all milder measures shall prove ineffectual, to remand the State to a territorial condition and through a system of public education and kindred means of improvement, change the ideas of the inhabitants and reconstruct the government on a Republican basis.

The Venezuelan Claims.

The Foreign Committee of the House have adopted a report upon Venezuelan claims in which they say that the investigation has proved the fraudulent character of the claims and the truth of the allegations of Venezuela, and further that the refusal to respond to the appeals of Venezuela cannot be justified, but in view of the fact that final legislation cannot be reached this session of Congress, they recommend the adoption of the following resolution: That the President of the United States is hereby requested to withhold further demands upon Venezuela on account of awards of the mixed convention under the convention of April 18, 1866, until the 4th of March 1877, and the Secretary of State is authorized and directed to suspend all further payments to holders of certificates awarded by said commission, until said time, unless Congress shall otherwise direct.

Sealed Proposals Wanted.

The Secretary of the Treasury gives notice that in order to pay the judgments of the Commissioners of Alabama Claims; sealed proposals will be received at the Treasury Department until noon the 12th inst., for the sale of 5 per cent. coupon or registered bonds of the funded loan of 1881, bearing interest payable quarterly from August 1st, 1886, in lots of not less than half a million dollars to the total amount of $2,160,000. These bonds are sold for gold and payment therefor must be made within three days after acceptance. Proposals should be marked "sealed proposals for loan," and addressed to the Secretary of the Treasury.

New Value on Foreign Gold.

Official information has reached the Treasury Department that the Argentine Government has issued a decree, putting a new value upon foreign gold and silver coin. The sovereign (British) reduced from $4.90 to $4.88; gold ounce or doubloon from $16 to $15.75; Napoleon (French) from $3.90 to 3.87; twenty milliers (Brazilian) from $11 to 10.90½; the condor (Chilian) from $9.26 to $9.15, etc.; while the American eagle, which was $10, is now raised to $10.03.

Consular Agent.

The Treasury Department is requested to recognize the appointment of Horace W. Fisher as Consular Agent of the Chilian Government at Boston, and has given instructions accordingly.

MISSOURI.

The Gang of Train Robbers—Their Arrest Probable—King's Confession.

ST. LOUIS, Aug. 7. Chief of Police McDonnough has returned from Sedalia, where he went with Bruce Young and Hobbs Kerry, the suspected train robbers. He says Kerry was clearly identified as one of the party that robbed the train, and subsequently confessed to McDonnough that he was one of the party, and gave the names of others of the gang. Their names correspond with those already telegraphed excepting that of Bruce Younger, who was not present when the robbery was committed. There seems no doubt that the whole party will be arrested within a few days, and this gang of robbers and desperadoes will be effectually broken up.

ALABAMA.

The State Election—The Democrats Claim a Sweeping Victory.

MONTGOMERY, Aug. 7. Returns from various parts of the State indicate a sweeping Democratic victory. Houston's majority for Governor will not be less than 20,000 and will probably go much higher. The Democrats have made gains from every part of the State that has been heard from and will have a large majority in the Legislature.

THE INDIAN WAR.

Army Movements—A Battle on the Tapis.

NEW YORK, Aug. 7. A letter from the camp on the mouth of the Rosebud river, dated 2d, says Col. Otis, with 380 men, arrived there on the steamer Carroll, having had a skirmish with the Indians on the bank of the river on the way up. Terry hopes to make a forward movement on the 10th inst., if Gen. Miles arrives before the Fifth Infantry and needed supplies. Terry's command consists at present of four companies of the 2d Cavalry, the 7th Cavalry, minus five companies annihilated, six companies of the 2d Infantry, six companies of the 22d Infantry, five Gatlin guns, one Napoleon gun, and about 100 Arickasse and Crow scouts, who have reached Terry from Gen. Crook. The steamer Far West has been sent down the Powder river to bring up supplies found there by Col. Otis' command, which the Indians were appropriating. From all indications the Indians are concentrating from all sides for a big fight. They are estimated at from 5000 to 8000 men. Capt. Thompson, of the 2d Cavalry committed suicide just before the troops left Big Horn River. He was a native of Pennsylvania, but appointed from Maine.

Agents Removed.

WASHINGTON, Aug. 7. The Indian Commissioner has removed the agents at Red Cloud and Spotted Tail agencies for incompetency and the agencies have been turned over to the War Department. All the agents on the Sioux reservation have been directed to assist the military authorities in arresting the Sioux warriors who participated in the fight with Custer as they return. These men are placed in the hands of the military as prisoners of war.

The Canadian Indians.

OTTAWA, Aug. 7. The latest advices received by the Government from the Northwest territory are to the effect that the Canadian Indians refused all incentives to take part in the hostilities against the United States. The report from Cheyenne that Sitting Bull is being joined by Stragglers' band from British territories is probably a canard.

THE WEATHER.

WAR DEP'T, OFFICE CHIEF SIGNAL OFFICER, Washington, D. C., Aug. 7 (1 A. M.)

Probabilities.

For New England and the Middle States: stationary to rising barometer, westerly to southerly winds, and slightly cooler, clear and partially cloudy weather, followed by light rains in Virginia.

FOREIGN NEWS.

THE TURCO-SERVIAN WAR.

The Turks Resorting to the Torch.

LONDON, Aug. 7. A despatch to the Reuters from Semlin to-day says Gurgusvoatz is in flames and the Turks are burning and destroying everything in their way. It is said the Servian Gen. Tchernayeff is daily gaining popularity. The rumors of political arrests in Belgrade are entirely unfounded.

The Salonica Outrage.

CONSTANTINOPLE, Aug. 7. The Porte has paid the families of the German and French Consuls, murdered at Salonica, an indemnity of $40,000. The new Governor of Salonica, accompanied by three military officers of high rank, will proceed thither to read in the presence of the troops the judgment against those implicated in the outrage.

Lime street should be sprinkled to-day. It was fearfully dusty yesterday.

Mr. A. G. Harlow, of the Boston *Traveller*, is in the city visiting friends.

A concrete walk is being built on the North side of Thomas street. It was very much needed.

The August term of the Supreme Judicial Court opens this morning, with Judge Peters on the bench.

The agent for the publishers of the New England Business Directory is about to commence canvassing the city.

The game of ball between the Jackson Brook nine and the Orients takes place this afternoon. It will be an exciting one.

Mr. F. S. Davenport has been secured as organist of St. John's (Catholic) church in place of Mr. Hodgkins. He opened his engagement last Sunday.

The City Government recently passed an order to build a road from the Six Mile Falls road at the junction of the Pushaw road to the new bridge across the Kenduskeag.

By referring to our advertising columns, it will be noticed that Mr. George Dickey, has lost his cane. The Finder will confer a favor by leaving same at his residence or this office.

An unsuspecting young lady had her hat stolen from off her head, while at Barnum's yesterday, and she was not aware of it until the thief had disappeared. It is not to be wondered at however.

The *Commercial's* press is run by a Backers double motor, and makes 1020 impressions an hour. The streams which supply the motor are two in number and each measures 5-32 of an inch in diameter.

Two little children who were possessed with a desire to see the great parade yesterday morning, wandered away from their homes on State street, but after diligent and long-continued search they were found by their parents.

A fracas occurred in a boarding house near the ferry way yesterday. A man who was under the influence of strong drink, endeavored to clinch his statements to the landlord by the presentation of a pistol; but that sort of conduct was mildly resented by the latter, who took the pistol away from the intruder, and used the butt on his head.

THE CONFIDENCE MAN. Our readers will remember that we recently gave an account of a little game played by a confidence man, in which Mr. Coffin, the sailmaker, was the victim. We notice by our exchanges that this same man has been in Rockland, and there undertook to dupe two sailmakers; but something in each case prevented him from being successful.

Messrs. Stillwell and Atkins, Fish Commissioners, went to Mattawamkeag on Thursday, July 27th, to establish fishways at Gordon Falls and Slewgundy, and while fishing, one day, Mr. Stillwell was poisoned by mercury about the face and neck, so that he was at one time totally blind. He was able to get out last Thursday. He is stopping at Stratton's hotel, Mattawamkeag.

The thirty-first regiment of Maine veterans will attend the reunion at Portland, leaving on the evening train Wednesday. The Bangor Cornet Band will accompany them. Their headquarters in Portland will be at the United States Hotel, and members are requested to report there at 7 A. M., the 10th inst. A large number will attend and a good time is anticipated. The arrangements have been made very quietly and are very complete.

The authorities have again put the fountain in place in the Post Office approach. A reservoir has been built in which ice is stored. A coil of pipes passes through this, and the water is allowed to flow very slowly, so that it may be much cooler than it would otherwise be. The water is quite cool, and no change will be made necessary, unless it is in increasing the size of the coil. The work is only an experiment, but will undoubtedly prove successful.

DELEGATES ELECTED. The following delegates have been elected to the Republican County Convention, in the towns named:

Brewer—B. F. Tefft. F. E. Collins, Henry C. Snow, Jesse Hincks, Otis Gilmore, J. V. Barker, S. H. Downs, William Long.

Orrington—M. Hutchings, Washington Barker, S. Bartlett.

Bradford—E. Fletcher, C. T. Fisher, A. Gary, and T. R. Kingsbury.

Lowell—Alfred Webb and Warren McPheters.

THE TEMPERATURE. The weather of the past two days has been excessively hot, surpassing in intensity any previous warm days of the season. It is not surprising that among so large a crowd as were present in the city yesterday, there should be cases of sunstroke. We have learned of three. One was a young man named Charles Foster, of Orono, who was at the show. He felt a depression and began to be bewildered. He was taken to be drunk, and received unnecessarily severe treatment at the hands of some rough customer who struck him a severe blow on the head, felling him to the ground. He was found by one of our physicians lying beside the road with a crowd standing around him, who thought he was drunk. He was promptly taken care of by the physician, and was after considerable treatment, restored. He had not been drinking at all, but was simply overcome by the heat. Another case was that of a poor boy who came here from Boston to secure work, but did not find any. He was so weak that he could not get about, and sought rest in the vestibule of the post-office. It is not unlikely that there were many others.

THE BRIG FIDELIA of Bangor, has been under repairs at the dock of Crosby Brothers, in this city. She was opened fore and aft, inside and out, thus exposing all the timbers in her frames. Her keelsons, keel, stem and stern post were refastened with iron. The old metal, though found good for another year, had been on five years, was stripped off, and some five hundred locust treenails put through her bilges and wedged at both ends. Her beams and knees were examined and the vessel found sound in every part of her hull. Her bottom was re-caulked and re-sheathed up to eleven feet with 20 to 26 oz. Revere Co.'s yellow metal. The spars, rigging and sails were thoroughly examined, and her original class was extended 4 years. The Fidelia was built in 1864, at the Crosby shipyard, Bangor, by day's work for her present owners, was one full year in building, consequently all her timbers were thoroughly seasoned and salted on the stocks. She has been a remarkably tight vessel, running for 12 years without insurance and without damage to vessel or cargo. She will be loaded immediately at this port by Capt. Thomas J. Stewart, with orange and lemon box shooks, for Sicily.

TEMPERANCE. A Dover correspondent writes as follows: A delegation from the Reform Club of Dover and Foxcroft visited Abbot Village last Sunday afternoon, and held a public meeting in the Village School House. Notwithstanding the extreme heat, the house was filled with an interested audience, and many who could not get inside listened through the open windows. The meeting was called to order by R. Gilman, President of the Dover Club, who, for nearly half an hour, held the attention of the audience. Dr. Thompson, of Dover, was the next speaker, and he also made an impression upon all those present, which will not soon be forgotten. J. B. Peaks, Esq., also addressed the audience for half an hour, at times with much feeling and marked effect, and when he had closed, nearly the whole audience came forward and signed the different pledges. Several who signed the iron-clad having been accustomed to using intoxicating liquors to excess. The meeting was a success in every respect, and the public sentiment of the citizens in favor of temperance and of the reform movement.

The Dover Club goes to Milo next Sabbath, to hold a like meeting, and it is hoped the citizens there will assist them in getting a large audience.

THE MAMMOTH EXHIBITION.

Large Crowd in Attendance—Sights to be Seen.

Yesterday was a second Fourth of July for Bangoreans, and the day resembled the Fourth in every respect with the exception of the celebration. The weather was intensely hot, the crowd large and the exhibition great.

The early trains brought hosts of people into the city from every adjoining town and the barge Clifford brought its full complement from the river towns.

The streets began to fill at an early hour with people anxious to see the parade.

Shortly after nine it appeared on the streets, and presented a variety of sights, both amusing and wonderful. Every one was pleased. No such parade was ever given in Bangor. The streets were lined with an admiring throng. The snake charmer attracted a great amount of attention and many were the shudders of the spectators as they noticed the coils of a huge serpent twined around his body.

The people began to flock about the tents several hours previous to the opening of the doors, and at one o'clock a great many had obtained admittance.

There was not a very great rush about the ticket-office, for tickets could be purchased in numerous other places. The ticket-seller, Mr. Jones, is a wonder in his way, and the readiness and alacrity with which he makes change is simply remarkable. Upon entering the door you may try to catch Mr. Charles Warren's eye, but all in vain; his is on the tickets, and he is one of the best in his business of any man in America.

The first tent entered contains the menagerie. The animals are most of them very fine and noble specimens. The lions are the kings of all, and the tigers, leopard, bears, rhinoceros, hippopotamus, hyena and sea lions afford profitable study and enjoyment. There are also a number of beautiful birds, which seem to attract their share of notice.

The Museum is in the next tent, and is full of curious objects which cannot fail to please.

Capt. Costantenus is the feature of all others. He is a man of most perfect physique, whose body is completely covered with shapes of animals. We have already given a full description of the tattooed man who certainly is a wonderful sight. Upon approaching him it cannot be realized that he is nude, but he seems to be covered with soft, velvety tights. Among the human attractions are Admiral Dot, a little creature, fully developed, and old enough to be a man in size, and the Circassian Lady.

The Circus tent comes next. It is capable of seating 8000 spectators, and was certainly full yesterday afternoon. Owing to the excessive heat great difficulty was experienced in seating everybody. They seemed to have a decided aversion to sitting within ten feet of each other. As soon as people got seated, and quiet was in any way restored, the performance began with a grand entree, which was far better than the average. The living curiosities from the Museum were then introduced, and the singing of the National anthem with cannon accompaniment, follows. The programme of the circus is then carried on in the customary manner. The trained horses performed very nicely, and the bare-back riding by Mr. Lowande was very fine, his movements being graceful and precise. The performances by the Japanese Satsumma and All-Right were very remarkable and skillful. Miss Watson is a very pleasing rider, and gave a very satisfactory exhibition of her skill. The four-pony act by Master Carlo, is very exciting. The Masters Carlo do a very nice act on the trapeze. They performed some of the most difficult feats with perfect ease. We might enumerate in detail the entire exhibition, but it is hardly necessary. Those who went expecting to see a good show were fully satisfied. A person who could feel dissatisfied for having expended the sum of 50 cents to see this great collection of sights, would be difficult to please.

Not the least interesting thing of the whole entertainment was Mr. Barnum's personal appearance in the arena. He addressed the audience in a few brief but humorous remarks, at the close of which he was loudly applauded.

A lady in this vicinity, who has recently read Mr. Barnum's life, discourses as follows, in rhyme:

WELCOME TO BARNUM.

Ye lumbermen and merchants,
Ye tillers of the soil,
Come now and help us welcome,
The champion of toil,
Whose heart is with the people.
Not with the proud and great,
So here's a welcome Barnum,
To the dear old Pine Tree State.

CHORUS.

Now, hip, hip, hip, hurrah, boys,
Let hearty welcome flow;
All hail to P. T. Barnum,
The Kingman of the Show.

Crusaders and Reformers,
Good Templars of Maine,
Come help to swell the chorus,
And join in the refrain,
To welcome a *Teetotaller*,
Whose courage did not fail,
Though asked to pledge himself in wine,
By the Swedish Nightingale.

Dear ladies of the concourse,
Please now your voices blend,
—*For he who's true to Charity,*
Is ever Woman's friend—
Let's show that women honor,
(*And bless when e'er they can,*)
The noblest gift of Heaven,
A brave, an *honest man.*

The audience yesterday afternoon was the largest ever gathered in Bangor.

To-day there will be no street parade; but two entertainments will be given.

The children of the Orphan's Home will go up this afternoon, at an early hour.

THE COUNTY CONVENTION.

Etna Chooses Two Sets of Delegates.

Mr. Editor:—

I notice in your issue of July 31st, a report that Etna had chosen delegates to attend the County Convention, giving their names and choice.

I wish to explain how they were chosen, and the action taken in regard to the affair.

Early in the season there was a move made by a few men to put forward a man from this town as candidate for Senator, and there seemed to be quite an opposition against him for this reason. The minority party managed to get the call for a caucus to choose delegates to attend the County Convention, in with the call to choose delegates to attend the District Convention, this being some time before the call for a County Convention was made. Of course it was not expected nor looked for. So there was very few at the caucus except those in the interest of the party named, but those at the meeting objected to the proceedings as contrary to usage, and unfair. It was at this caucus that the gentlemen named in your issue of that date were chosen.

A petition of 28 names was then presented to the Town Committee, asking them to give a call at the proper time, after the County Convention was called. This a majority of them refused to do, and then a call was made by the petitioners for a caucus last Saturday evening, at which time another set of delegates were chosen as follows:—A. C. Friend, L. C. White, Reuben Sanborn, and J. W. Boardman, who will ask the privilege of acting in the Convention. All we ask is fair play, and with this we are satisfied. I have stated this case so that the Republicans of this county will be prepared to act on the case at the proper time. The delegates were instructed to support Col. S. G. Jerrard for Sheriff.

A REPUBLICAN.

ETNA, Aug. 5, 1876.

From the Wesleyan Grove.

Mr. Editor:—Thinking that the next best thing to enjoying the delightful air and scenery of this popular retreat, will be to read of its pleasures, I drop you a few lines to remind your dust-loving citizens that within a few hours' ride they can throw off the cares of business and the heats of summer, and bask in the cool breezes that come to us from ocean surface ladened with health and vigor. Here all the comforts and very many of the luxuries of life are to be found in abundance. Connected with the Grove House is a variety store fully stocked with everything one is likely to need for the few weeks spent here.

The Grove House itself as conducted by that easy tempered landlord G. E. Dodge Esq., who evidently spends the balance of the year in manufacturing smiles for the season, has already gained an enviable reputation for its cool, airy and pleasant rooms, and the absolutely unrivalled perfection of its cuisine. The cook who is an importation (not from Erin) and belongs to the church (Church) is acknowledged by all to be thoroughly master of her profession. Very many ladies who had provided themselves with all the materials for doing their own cooking, have abandoned the idea and rely entirely upon the Grove Bakery, admitting the cooking to be superior to their own. This is an immense concession for a lady. The house already has a large number of boarders; but there is still room for more. Prices for board and rooms are very moderate, and the amount of food consumed very immoderate. Ladies of ethereal build, after sojourning here a few weeks, and then stepping on the scales, leave suddenly with little shrieks of dismay and crimson faces at their increased avoirdupois.

There are fifty-three cottages on and immediately around the ground, nearly all of which are now occupied, besides a large number of tents, which for the pleasant weather we are now having, answer equally as well. Some thirteen cottages are now in process of erection, with many more projected. The attendance is much larger than for the same time in any former year; notwithstanding the utmost quiet and harmony prevails. To look around the grounds one would be apt to imagine that nearly all of the respectable people of Bangor had located here for the season. The City of Richmond and the C. B. Sanford brought down a large number last evening many of whom remain.

The grounds are being very much improved, a large stable is being built in the rear for the accommodation of visitors; lest I be misunderstood, let me say that the stable is for visitors' horses and not for the visitors themselves; sail and row boats are here in abundance; a Post-Office is kept on the ground, at which the mails are regularly received; and ice is furnished in any quantity, and of as cold a quality as can be found in the city.

In short everything is being done to make a resident as delightful as heart can wish.

The configuration of the ground is such that at a very early hour in the afternoon the sun sinks behind the hills, projecting their shadows far into the bay, when one can sit on the cool piazzas and watch the multitude of boats of all sizes darting here and there, fast or slow as more or less muscle is brought into requisition? Every evening furnishes a regatta.

The selectmen of the town have very generously donated the road tax to the Association to be expended on the grounds.

Under the very efficient management of two of the trustees, Hiram Ruggles and Irvin Calderwood, who are live men, and throw their whole energies into the enterprize, the streets are being graded, more wells dug, strict regulations with regard to cleanliness are enforced, and no offensive sights or smells are to be meet with.

One of the inevitable necessities of the future is a complete system of drainage, and this no doubt will be secured at an early day.

A small steamer makes two trips per day between here and Belfast; the City of Richmond touches here daily; and the outside boats pay us the compliment of crowding their sides with passengers to gaze at the alluring prospect.

In fact the whole tendency of the place is to make one satisfied with himself and the world at large.

Come and try it and bring your friends.

Yours truly,

PHAROS.

THE HERDSMAN.

Before the morning sun comes out,
Or prairie grass has shook the dew,
You'll hear the herdsmen loudly shout,
The tramp of feet, and cattle's low;
The bray of mule, and horse's neigh,
The crack of whips and wild "hoi hoi"
Which tell the coming of the day,
When fattening herds, to the prairie go.

With curses deep and lash's sting,
The brutes are hurried on,
The startled birds rise on the wing
But sing no matin song.
Soon scattered o'er the grassy plain
The "steers" are roaming free,
The herdsman draws aslant the rein,
And seeks a distant tree.

There sheltered from the heat he lies,
A creature, almost less than beast,
Watching from his dull, half closed eyes,
The hungry brutes enjoy their feast.
The hours speed on, the summer's sun,
Its daily round has gently made,
With all the brutal works of morn
He plies again his brutal trade.

The pen is reached, the count is made,
The gate is closed till another morn,
The brutes lie down, not now afraid
Of herdsman's voice, or buckskin thong.
To man and brute thus goes the day,
With little space in thoughtful rambles,
One lives for—answer who may,
The other fattens for the shambles.

WEEKLY COURIER.

CAMPAIGN EDITION For 1876.

To be issued Three Months, beginning June 23d, and closing September 15th.

A NEWSPAPER FURNISHED AT LESS THAN COST.

In compliance with requests by many leading Republicans and with a desire to promote the dissemination of Republican principles and to aid in assuring the most emphatic Republican triumph in the approaching Presidential election, the Proprietors have decided to furnish the WEEKLY edition of the WHIG AND COURIER for the three months during the Campaign at a price hardly covering the cost of the white paper. The first number of the Campaign WEEKLY COURIER, which is made up with the latest telegraphic and other news from our Daily, will be issued June 23d, immediately after the opening of the Centennial canvass by the National Convention at Cincinnati, June 14, and the Republican State Convention, in Bangor, June 22, and the last number will be issued September 15th, with a report of our State election.

The edition will comprise thirteen weekly numbers of the largest paper published in the State, each number accompanied by a two-page supplement, and will be furnished to new subscribers only, at the following low rates:

One Copy, sent Postage paid, 35cts.

EXTRA INDUCEMENTS TO CLUBS.

Three Copies to one address,	$1.00
Ten Copies to one address,	3.00
Twenty Copies to one address,	6.00
Fifty Copies to one address,	14.00
One Hundred Copies to one address,	25.00

We have determined to offer the Campaign COURIER at this low price solely with the object of bringing to the attention of those who do not now take any Republican paper, the current information upon which a sound political judgment should be based, and the merits and claims of the doctrines and principles which we advocate.

The coming Campaign will be one of the most important in our National history, and promises to exceed any previous contest in interest and excitement. It is already manifest that misrepresentation, calumny and sensational reports will be freely employed to deceive the public, and it is essential that reliable and trustworthy information should be most widely circulated to counteract such misleading influences. Every citizen should keep fully posted concerning public affairs during the progress of the Campaign, and the WEEKLY COURIER, with its forty-eight columns principally devoted to current news, will prove a most desirable compendium of information to be put in the hands of every voter.

Send in Subscriptions at once.

The Republican Town Committees and all other citizens who are interested in the success of the Republican Cause are invited to render practical and valuable aid by taking prompt measures for placing the Campaign edition of the WHIG AND COURIER in the hands of every voter who is not now a subscriber. In politics the papers will continue to advocate and uphold the principles of the Republican party, while claiming to be independent, in the highest and best sense of the word. Fearless and outspoken in the treatment of all public questions and firmly maintaining what they believe to be *right*, they will avoid intolerance and make their appeals to the understanding rather than to prejudice. The year about to open will be fruitful of unusually important political events bearing upon the future of our country, and unprecedented interest will be excited in the

GREAT PRESIDENTIAL CAMPAIGN
OF THE
Centennial Year.

The celebrations of the Hundredth Anniversary of our National Independence will also be conducted upon a magnificent scale and the public will wish to be kept fully informed of the progress of those great events. It will be our aim to afford our readers the earliest and most reliable information and to favor only such measures and policy as will best promote the welfare of all the people.

HOME INTERESTS

as affected by the development of the resources of Maine, will receive special attention, and whatever is calculated to stimulate or benefit

LETTER CARRIERS.

All letters are delivered free by carriers when addressed to street and number. People should inform their correspondents of above and have their letters addressed accordingly.

Persons having their address at the General Delivery can also have their letters sent, but it is much more convenient to have the street and number on, and they will be delivered earlier than if the same is put on at the office. Carriers make two deliveries daily, the first trip supplying the extremes of their routes.

Collections are made morning and evening in season for important mails—the down town boxes fifteen and the up town boxes thirty minutes before closing mails at the office.

Holidays the Carrier's Window will be open for the delivery of letters from 8½ to 9½ A. M., and from 7½ to 8½ P. M. Sundays from 8½ to 9½ A. M.

Any irregularities in the Carriers' department should be reported to the office.

ENVELOPES.

No additional charge will be made for printing the name and request to return, across the left hand upper corner of the envelopes furnished by the Post Office Department, (samples of which may be seen at the Cashier's window,) when ordered in lots of not less than 500.

A request for the return of a letter to the writer, if unclaimed within thirty days, or less, written or printed, with the writer's name, post office and State, across the left end of the envelope, on the face side, will be complied with.

☞The public are earnestly recommended to procure Stamped envelopes with printed return request, as the expense is less, and letters thus endorsed, if not delivered to the person addressed, are returned to the writer free of charge.

First class envelopes of above furnished at $37.30 per thousand.

Stamps cut from Stamped Envelopes

cannot be used to prepay postage. The use of such Stamps is punishable by a fine of fifty dollars.

Stamped Envelopes, spoiled in directing, are redeemed at this office.

DOMESTIC POSTAGE.

All Letters must be Prepaid.—Letters for the Mails in the United States, three cents the half ounce or single rate. City letters, two cents half ounce or single rate.

NEWSPAPERS.

After January 1st, 1875, all regular newspapers must be prepaid at the office of publication, at the rate of two cents per pound for each issue on weekly papers or those published oftener than once a week; less frequently than once a week three cents. The same law applies to dealers.

County papers free, except to letter carrier offices, i.e. papers coming to this office, if published in County, are subject to postage. Daily papers published in County, if delivered by carrier, one cent each, to be prepaid by stamps.

Postage to Canada.—Same as in the States on letters and papers, pre-payment compulsory; merchandise limited to 8 oz., postage 10 cents.

ADVERTISED LETTERS.

All letters remaining in the office are advertised on Monday of each week. If not claimed in *one month* thereafter, they are then forwarded to Washington.

MONEY ORDERS.

Especial attention is called to the Money Order system, as a safe and cheap method of transmitting small sums through the mails. Orders are issued in sums of not more than fifty dollars. Larger amounts can be transmitted to the same person, at the same time, by additional orders.

WM. FLOWERS.
Bangor, May 23, 1876.

To the Honorable the Judge of Probate for the County of Penobscot.

Sylvester C. Gatchell, of Plymouth, in the County of Penobscot, Administrator of the estate of George W. Getchell, late of said Plymouth, deceased, respectfully represents that the amount due from the estate of said deceased for the payment of debts and expenses of administration, as near as can be ascertained, is sixteen hundred and fifty dollars; that the value of the personal estate of said deceased available to pay the same does not exceed eleven hundred dollars, and insufficient to pay the same by the sum of five hundred and fifty dollars, and that a sale of some portion of the real estate of said deceased is necessary for the payment of said deficiency.

Wherefore your petitioner prays, inasmuch as by a partial sale of any entire portion of said real estate the residue would be greatly depreciated in value, that he may be licensed to sell for the payment of debts and expenses of administration, at private sale the whole of the homestead farm of the said deceased, situate in said Plymouth.

Dated this 30th day of May, A. D. 1876.
SYLVESTER C. GATCHELL.

STATE OF MAINE.

PENOBSCOT, ss. Court of Probate, May Term, A. D. 1876.

Upon the foregoing petition, ORDERED, That said petitioner give public notice to all persons interested, by causing a copy of the petition and this order thereon, to be published three weeks successively in the Bangor Daily Whig and Courier, a newspaper published in Bangor, in said County, that they may appear at a Court of Probate for said County, to be held at the Probate Office in said Bangor, on the last Tuesday in June next, at ten of the clock in the forenoon, and show cause, if any they have, why the prayer of said petitioner should not be granted.

JOHN E. GODFREY, Judge.
Attest: AMBROSE C. FLINT, Register.
A true copy of the petition and order thereon,

In the District Court of the United States, for the District of Maine. In the matter of Johnson & Fogg, Bankrupts. In Bankruptcy.

At Portland, in the said District, on the 16th day of May, A. D. 1876.

DISTRICT OF MAINE, ss. This cause came on to be heard at Portland, in said Court, and Albert D. Fogg being solemnly called to come into Court and show cause, if any he had, why he, and the firm of Johnson & Fogg should not be adjudged Bankrupt upon the petition of Noah W. Johnson the other member of said firm, does not appear but makes default.

And thereupon, and upon consideration of the proofs in said cause it was found that the facts set forth in said petition were true, and it is therefore adjudged that said Fogg and said firm became bankrupt within the true intent and meaning of the Act entitled "An Act to establish a uniform system of Bankruptcy throughout the United States" approved March 2, 1867, before the filing of the said petition, and they are therefore declared and adjudged bankrupt accordingly. And it is further ordered that the said Fogg, Bankrupt, shall within ten days after the date of this order, make and deliver or transmit by mail, postpaid to the Marshal, as Messenger, a schedule of their creditors and inventory of their estate in form, and verified in the manner required of the petitioning debtor by the said Act.
